7. Abdominal MRI - Without contrast (Fee: NT\$8,450/person)

Examination Items		Examination Content	Standard	Advanced	
Test Items	01	Blood routine examination	Red blood cell (RBC), hemoglobin, hematocrit, mean corpuscular volume (MCV), mean corpuscular hemoglobin concentration (MCHC), red cell distribution width (RDW), platelets, white blood cell (WBC) count, neutrophil, eosinophil, basophil, lymphocyte, monocyte, etc.	•	•
	02	Renal function test	Blood urea nitrogen, creatinine	•	•
	03	Liver function test	Albumin, total protein, total bilirubin, albumin/globulin ratio, GOT, GPT, Alk-p	•	•
	04	Uric acid	Uric acid	•	•
	05	Electrolytes test	Sodium, potassium, chloride, calcium, phosphate	•	•
	06	Blood glucose test	Glucose AC	•	•
			Glycated hemoglobin (HbA1c)	•	•
	07	Thyroid function	Thyroid-stimulating hormone (TSH)	•	•
			Free thyroxine (Free T4)		•
	08	Syphilis screening	Syphilis antibody screening	•	•
	09	Blood lipid test	Total cholesterol (TC), triglycerides, high/low-density lipoprotein (HDL/LDL), high sensitivity c-reactive protein (hs-CRP), HOL/HDL	•	•
	10	Hepatitis screening	Hepatitis B surface antigen (HBsAg), hepatitis B surface antibody (HBsAb), hepatitis C antibodies (Anti-HCV)	•	•
	11	Urine routine examination	pH, specific gravity, glucose in urine, protein in urine, WBC, urine occult blood, urobilinogen, ketones, urine sediment, nitrite, etc.	•	•
	12	Stool examination	Immunological stool occult blood test	•	•
Stool helicobacter pylori antigen test			•		
13	Cancer screening	AFP, CEA, CA199 (men), PSA (men), CA125 (women), CA153 (women)	•		
	New cancer screening	AFP, CEA, CA199, PSA (men), CA125 (women), CA153 (women), CYFRA 21-1, SCC, EBV IgA		•	
14	Calcium absorption test	VITAMIN D	•	•	
Examination Items	15	Physical examination	Height, weight, body temperature, pulse, blood pressure, respiration, waist circumference, body mass index (BMI), etc.	•	•
	16	Body composition analysis	Body fat mass, body fat percentage, lean body mass, muscle weight, mineral mass	•	•
	17	Lung function test	Lung function test	•	•
	18	Heart examination	Resting electrocardiography	•	•
	19	Advanced heart examination	Echocardiography		•
	20	X-ray	Chest and abdomen X-ray	•	•
	21	Abdominal ultrasound	Abdominal (liver, gallbladder, pancreas, and spleen) ultrasound	•	•
Specialist Consultation	22	Ophthalmology consultation	Consultation with an ophthalmologist, including vision, eye pressure, funduscopy, color blindness, etc.	•	•
	23	Dentistry consultation	Consultation with a dental specialist	•	•
	24	Otolaryngology consultation	Consultation with an ENT specialist	•	•
	25	Obs/Gyn	Women: Consultation with an Obs/Gyn specialist, pap smear		•
	26	HPV	Human papillomavirus screening (women)		•
	27	Healthy eating guidance	Consultation with a dietitian on healthy eating	•	•
Advanced Examination	28	C-13 breath test	Helicobacter pylori test		•
	29	Computer tomography	Low-dosage CT scan of the lungs	•	•
	30	Carotid ultrasound	Color-coded carotid ultrasound		•

	31	Arteriosclerosis examination	Non-invasive blood vessel measurement		•
	32	Bone mass density test	Bone densitometry and fracture risk analysis		•
	33	Ultrasound examination	Women: Breast ultrasound	•	•
			Women: Gynecology ultrasound		•
Men: Ultrasonography of prostate				•	
		Renal ultrasound	•	•	
Overall Assessment by a Physician	34	Internal medicine physical examination	Physical examination by a physician	•	•
	35	Comprehensive report explanation	Comprehensive one-on-one explanation of the report by a physician	•	•
Dining Service			We offer Western style breakfast boxes and healthy lunch options with coffee and tea.	•	•
