Education and Imaging

1751 Gastrointestinal: Segmental portal hypertension caused by pancreatic mucinous cystadenoma

1752 Gastrointestinal: Olgivie’s syndrome: A rare complication of cytomegalovirus infection in an immunocompetent patient

1753 Gastrointestinal: Mesenteric infarction associated with cardiac pacing: An uncommon cause of acute abdominal pain

1754 Hepatobiliary and Pancreatic: Spontaneous intrahepatic hemorrhage from peliosis hepatitis—An uncommon complication of a rare liver disorder

1755 Hepatology: Portal vein cavernoma imitating cholangiocarcinoma in a patient with erythropoietic protoporphyria

Review Article

1756 Prevention and management of biliary anastomotic stricture in right-lobe living-donor liver transplantation

Clinical Gastroenterology

1764 Feeding difficulties in children with food protein-induced gastrointestinal allergies

1770 The association of SLC6A4-HTL1PR and TRPV1 945G>C with functional dyspepsia in Korea

1778 Associations of FUT2 and FUT3 gene polymorphisms with Crohn’s disease in Chinese patients

1786 Colonic diverticular hemorrhage associated with the use of nonsteroidal anti-inflammatory drugs, low-dose aspirin, antiplatelet drugs, and dual therapy

1794 Gastric Helicobacter pylori infection associated with risk of diabetes mellitus, but not prediabetes

Experimental Gastroenterology

1800 Marine genetic deficiency of neuronal nitric oxide synthase (nNOS-“) and interstitial cells of Cajal (W/IP): Implications for achalasia?

Endoscopy

1815 Novel method of endoscopic ultrasound-guided hepaticojaunalostomy to prevent stent dysfunction

Clinical Hepatology

1822 The role of Fbxw7 expression in hepatocellular carcinoma and adjacent non-tumor liver tissue

1830 CD34+ cell therapy is safe and effective in slowing the decline of hepatic reserve function in patients with decompensated liver cirrhosis

1839 The serum proteome of nonalcoholic fatty liver disease: A multimodal approach to discovery of biomarkers of nonalcoholic steatohepatitis

Erratum

1848
