

# TABLE OF CONTENTS

December 2014 Volume 6 Number 4

## Original Articles

- 133 Comprehensive analysis of common coding sequence variants in Taiwanese Han population  
*Ya-Chi Lin, Joseph T. Tseng, Shuen-Lin Jeng, H. Sunny Sun*
- 144 Aoin-induced cell growth arrest, cell apoptosis, and autophagy in human non-small cell lung cancer cells  
*Ming-Chin Lee, Ji-Der Liao, Wan-Ling Huang, Fang-Yi Jiang, Yu-Zih Jheng, Yuan-Yuan Jin, Ya-Shih Tseng*

## Short Communications

- 150 Autophagy regulation in heme-induced neutrophil activation is associated with microRNA expression on transfusion-related acute lung injury  
*Ren-In You, Ching-Liang Ho, Ming-Shen Dai, Hsiu-Man Hung, Chu-Shun Chen, Tsu-Yi Chao*
- 154 Development of a miRNA biochip platform  
*Jia-Yuan Chang, Mei-Yin Chang, Yi-Lin Wu, Fong-Jia Syu*
- 159 Identifying the invasive nature of a distinct population from A549 adenocarcinomic lung cancer cell  
*Meng-Wei Lin, Ching-Hsuan Law, Hsiu-Chuan Chou*
- 163 Predictive biomarkers for the efficacy of concurrent chemoradiotherapy for patients with colorectal cancer  
*Hsin-Ju Wu, Hsueh-Chiao Liu, Yu-Tang Chang, Shiu-Ru Lin, Long-Sen Chang*
- 167 Secretomic analysis uncovers the mechanisms of gefitinib resistance in non-small-cell lung carcinoma  
*Shine-Bei Wu, Hsiu-Chuan Chou*
- 171 The impact of white blood cell count and hemoglobin level on the response to radiotherapy in patients with colorectal cancer  
*Hsueh-Chiao Liu, Ming-Yii Huang, Jaw-Yuan Wang, Long-Sen Chang, Shiu-Ru Lin*
- 175 Hyperglycemia initiates N-cadherin rearrangement and diabetic monocytes promote inflammatory responses in human microvascular endothelial cells  
*Chi-Lun Feng, Hsiu-Chuan Chou*
- 180 Serum adiponectin and glucose in patients with hepatitis B virus infection  
*Wen-Tung Hsu, Keng-Yi Wu, Wu-Hsien Kuo, Wen-Hsiu Hsu, Yu-Lian Lai, Yi-Yu Tu, Kwang-Yang Tsai, Li-Mien Chen*
- 183 Polymorphisms in *EGFR*, *GSTP1*, *XPD*, *DPD*, *ERCC1*, and *UTG1A1* of colorectal cancer patients treated with 5-fluorouracil plus oxaliplatin or irinotecan chemotherapy  
*Chia-Ting Chao, Yi-Lin Wu, Tai-Feng Hsu, Jaw-Yuan Wang, Long-Sen Chang, Shiu-Ru Lin*

## Abstracts

- 186 Association of transforming growth factor- $\beta$ 1 gene T869C polymorphisms with osteopenia and osteoporosis in Taiwanese  
*Tai-Feng Hsu, Yu-Ting Yang, Pei-Fen Wu, San-Ho Hung, Kwok-Wan Yang*

- 187 Autophagy regulates human hepatocellular carcinoma tumorigenesis through selective degradation of cyclin D1  
*Shan-Ying Wu, Sheng-Hui Lan, Xi-Zhang Lin, Ih-Jen Su, Ting-Fen Tsai, Chia-Jui Yen, Hsiao-Sheng Liu*
- 188 Characterization of a colorectal cancer migration and invasion-related microRNA miR-338-5p and its target gene PIK3C3  
*Jian-An Ju, Ching-Tang Huang, Sheng-Hui Lan, Ting-Huei Wang, Peng-Chan Lin, Jenq-Chang Lee, Hsiao-Sheng Liu*
- 189 Endothelin-1 promotes cell migration through epithelial-to-mesenchymal transition in human oral cancer  
*Chia-Yun Huang, Ching-Ping Wang, Yi-Hao Chang, Pei-Han Huang, Chih-Hsin Tang, Min-Huan Wu*
- 190 Endothelin-1 promotes vascular endothelial growth factor (VEGF) expression through regulating snail of human oral cancer  
*Yi-Ling Yu, Ching-Ping Wang, Yi-Hao Chang, Seng-sheen Fan, Wei-Ting Chao, Chih-Hsin Tang, Min-Huan Wu*
- 191 Identification of a novel hypermethylated tumor suppressor gene ZNF671 in human bladder cancer and its implication in non-invasive cancer detection using voided urine  
*Chia-Ming Yeh, Pi-Che Chen, Yu-Hsin Chen, Lin-Chien Hung, Yi-Ting Wang, Ming-Hsuan Tsai, Martin M.S. Huang, Cheng-Huang Shen, Cheng-Da Hsu, Michael W.Y. Chan*
- 193 Lobeline enhances chemosensitivity of doxorubicin in multidrug-resistant human uterine sarcoma cells  
*Mei-Chen Shen, Chin-Hsun Hsu*
- 194 Overexpression of carbonic anhydrase-related protein-8 gene enhances osteosarcoma cell migration by increasing matrix metalloproteinases expression  
*Yi-Sheng Lai, Mingli Hsieh, Seng-sheen Fan, Wei-Ting Chao, Chih-Hsin Tang, Min-Huan Wu*
- 195 Overexpression of Mps one binder proteins-2 (mob2) gene promotes epithelial-to-mesenchymal transition in human fibrosarcoma cells  
*Bo-Ying Chen, Seng-sheen Fan, Wei-Ting Chao, Min-Huan Wu*
- 196 Studying the molecular mechanism underlying dissemination of pancreatic ductal adenocarcinoma after surgical resection  
*Shu-Ting Hsu, Ya-Chi Lin, H. Sunny Sun*
- 197 The synergistic effect of gene polymorphisms on drug induced side-effects among patients with pulmonary tuberculosis  
*Chen-Han Hou, Tai-An Chiang, Shun-Teien Chien, Wen-Ping Wei, Jui-Ming Huang, Pei-Fen Wu*
- 198 Transfection anti-beta-catenin intrabody to suppress cancer cell by blocking Wnt pathway  
*Der-An Tsao, Shu-Mei Yang, Chen-Rou Yang, Yu-Hsiang Kang, Ya-Cin Lai, Pei-Yu Chen, Yi-Han Wang, Shih-Yu Huang, Wei-Chang Tseng, Han-Chung Wu*
- 199 Up-regulation of the Mps one binder proteins-2 (mob2) gene enhances human fibrosarcoma cells migration by increasing matrix metalloproteinases expression  
*Kuan-Min Chen, Seng-sheen Fan, Wei-Ting Chao, Li-Yu Chen, Min-Huan Wu*
