

## CONTENTS

<b>1. CELLULAR NEUROSCIENCE</b>	
1.1. Molecular Neurobiology and Neurogenetics	263
1.2. Nervous System Development	264
Early development	
Neural crest	
Brain and spinal cord	
Peripheral nervous system	
Sensory-auditory	
Sensory-vestibular	
Sensory-visual	
Sensory-somaesthetic	
1.3. Transplantation and Regeneration	265
1.4. Neurotrophic Factors (including nerve growth factor) (NGF)	266
1.5. Nerve and Glial Cell Biology	266
1.6. Receptor Transduction Mechanisms	268
GTP and G proteins	
cAMP and cGMP	
Phosphorylation and protein kinases	
Inositol phosphates	
Calcium	
Arachidonic acid metabolites	
1.7. Ion Channels	270
Sodium	
Potassium	
Calcium	
Chloride	
Intracellular pH	
1.8. Enzymes	271
1.9. Processes and Products of Metabolism	271
1.10. Lipids, Glycolipids, and Polysaccharides	272
1.11. Myelin and Membrane Studies	272
1.12. Proteins	272
Structure	
Biosynthesis and processing	
Amyloid protein	
<b>2. NERVE STRUCTURE AND FUNCTION</b>	
2.1. Physiology of Nerve Cells	275
Dendrites	
Axons	
Terminals	
Synaptic transmission	
Bioelectric potentials and membrane permeability	
Neuronal plasticity	
<b>3. PHYSIOLOGY AND PHARMACOLOGY OF THE PERIPHERAL NERVOUS SYSTEM</b>	
3.1. Innervation of Skeletal Muscle	278
3.2. Innervation of Smooth Muscle	278
3.3. Motoneurons and Spinal Reflexes	278
3.4. Neuromuscular Junction	279
3.5. Innervation of the Lungs	-
3.6. Innervation of Cardiac Muscle	-
3.7. Innervation of the Blood Vessels	-
3.8. Innervation of the Kidney	279
3.9. Innervation of Adrenal Glands	-
3.10. Innervation of Urinary Tract	279
3.11. Innervation of Reproductive Organs	-
3.12. Innervation of Salivary Glands	-
3.13. Innervation of Oesophagus	-
3.14. Innervation of the Stomach	280
3.15. Innervation of the Intestine	280
3.16. Innervation of Pancreas	-
3.17. Innervation of the Liver and Gall Bladder	-
3.18. Innervation of Spleen	-
3.19. Sympathetic Nervous System	280
3.20. Parasympathetic Nervous System	280
3.21. Enteric Nervous System	280
3.22. General Autonomic Nervous System	280
3.23. Local Anaesthetics	280
<b>4. PHYSIOLOGY OF THE CENTRAL NERVOUS SYSTEM</b>	
4.1. Blood Brain Barrier	281
4.2. Cerebrospinal Fluid	281
4.3. CNS and Nerve Circulation	281
4.4. Spinal Cord	281
4.5. Meninges	-
4.6. Cranial Nerves	-
4.7. Brain Stem	282
Medulla	
Pons	
4.8. Midbrain	282
4.9. Cerebellum	282
4.10. Basal Ganglia	283
4.11. Amygdala	283
4.12. Hippocampus	283
4.13. Cerebrum	285
4.14. Olfactory Bulb	287
4.15. Visual Cortex	287
4.16. Habenula	288
4.17. Corpus Callosum	288
4.18. General Telencephalon	-
4.19. Thalamus	288
4.20. Hypothalamus	288
4.21. General Diencephalon	-
4.22. Pituitary Gland	288
Anterior lobe	
Intermediate lobe	
Posterior lobe	
4.23. Pineal	288
4.24. Ventricles	-
4.25. Dorsal Root Ganglia	289
4.26. CNS Tracts	-
4.27. Sexual Dimorphism	-
4.28. Brain Morphology	289
4.29. Neural Networks	289
<b>5. PHARMACOLOGY OF THE CENTRAL NERVOUS SYSTEM</b>	
5.1. Drugs for Parkinson's Disease	292
5.2. Other Movement Disorders	-
5.3. Muscle Relaxants (Central)	-
5.4. General Anaesthetics	292
5.5. Anxiolytics (including Benzodiazepine Receptors)	293
5.6. Sedatives and Hypnotics	-
5.7. Antipsychotics	293
5.8. Anticonvulsants	293
5.9. Analgesics and Antipyretics	294
5.10. Memory	294
5.11. Stimulants and Anorectics	295
5.12. Hallucinogens	-
5.13. Antidepressants	295
5.14. Anti-emetics	-
5.15. Alcohol and CNS Depressants	295
5.16. Epileptogens	295
5.17. Anti Migraine Agents	295
<b>6. NEUROTRANSMITTERS AND SYNAPTIC TRANSMISSION</b>	
6.1. Cholinergic System	296
Acetylcholine	
Muscarinic receptors	
Nicotinic receptors	
6.2. Adrenergic System	297
Adrenaline	
Noradrenaline	
Alpha 1 receptors	
Alpha 2 receptors	
Beta 1 receptors	
Beta 2 receptors	
Combinations of alpha and beta receptors	
6.3. Steroid Hormones	297
6.4. Dopamine	297
6.5. 5-Hydroxytryptamine (serotonin)	298
6.6. Histamine	299
6.7. Inhibitory Amino Acids	299
Gamma-aminobutyric acid (GABA)	
Glycine	
Taurine	
6.8. Excitatory Amino Acids	300
Aspartate	
Glutamate	
N-methyl-D-aspartate (NMDA)	
6.9. Calcitonin-Gene-Related-Peptide (CGRP)	301
6.10. Substance P and Kinins	301
6.11. Opioids	301
6.12. Cannabinoid Receptors	301
6.13. Vasoactive Intestinal Polypeptide (VIP)	-
6.14. Nitric Oxide	302
6.15. Cholecystokinin (CCK)	-
6.16. Atrial Natriuretic Peptide	-
6.17. Angiotensin	302
6.18. Galanin	-
6.19. Nucleotides and Related Substances	302
6.20. Neurotensin	-
6.21. Neuropeptide Y	302
6.22. Vasopressin (ADH) and Oxytocin	302
6.23. Endothelin	-
6.24. Somatostatin	-

6.25. Releasing Factors .....	-
6.26. Glutathione .....	-
6.27. Neuro-Sensory Toxicology .....	302
6.28. Neuroendocrinology and the Immune System .....	304
<b>7. INTEGRATIVE NEUROPHYSIOLOGY</b>	
7.1. Control of Movement .....	307
Neurobiology of exercise	
Motor learning	
7.2. Control of Respiration .....	310
7.3. Control of Blood Pressure .....	310
7.4. Memory and Learning .....	310
7.5. Control of Sleep .....	314
7.6. Control of Feeding and Drinking .....	314
7.7. Control of Speech (including Language and Birdsong) .....	315
7.8. Neurobiology of Ageing .....	315
7.9. Neurobiology of Stress .....	316
7.10. Biological Rhythms .....	317
7.11. Thermoregulation .....	318
7.12. Neuromagnetism and Neurophysics .....	-
<b>8. SENSORY SYSTEMS</b>	
8.1. General Properties of Sensory Receptors .....	-
8.2. Muscle Spindles .....	-
8.3. Cutaneous and Joint Receptors .....	319
8.4. Auditory System .....	319
Outer and middle ear structure	
Inner ear structure (cochlea)	
Hair cell and transduction	
Auditory pathways	
8.5. Vestibular System .....	321
8.6. Visual System .....	322
Functional anatomy of the eye	
Retina and photoreceptor transduction	
Visual pathways	
Eye movements	
Colour vision	
8.7. Somaesthetic System .....	325
Pain	
Mechanoreceptors	
Temperature	
Olfaction	
Gustation	
Osmoreceptors	
Baroreceptors	
Chemoreceptors	
8.8. Lateral Line System .....	328
Mechanoreceptive lateral line	
Electroreceptors	
<b>9. BEHAVIOURAL NEUROSCIENCE</b>	
9.1. Addiction, Tolerance and Withdrawal Mechanisms .....	330

Alcohol	
Tobacco	
Cocaine	
Morphine and heroin	
Hallucinogens	
Caffeine	
Amphetamines	
9.2. Dementias .....	333
9.3. Psychoneuroimmunology .....	-
9.4. Behavioural Effects of Neurotransmitters and Hormones .....	334
9.5. Psychophysiological Studies .....	335
9.6. Behavioural Effects of Neurotoxins .....	337
9.7. Cognitive Science .....	337
<b>10. NEUROPATHOLOGY</b>	
10.1. Neoplasia of the Brain and Nervous System .....	349
10.2. Alzheimer's Disease .....	353
10.3. Parkinson's Disease .....	356
10.4. Other Degenerative Diseases .....	358
10.5. Myelin Defective Disorders .....	360
10.6. Huntington's Chorea and Other Inherited Disorders .....	360
10.7. Autoimmune Diseases .....	361
10.8. Viral and Microbial Induced Disorders .....	363
10.9. Prion Induced Disorders .....	363
10.10. Nerve Injury .....	363
10.11. Neuromuscular Disorders .....	364
10.12. Movement Disorders .....	364
10.13. Epilepsy .....	365
10.14. Migraine .....	367
10.15. Diabetic Neuropathy .....	368
10.16. Schizophrenia and Psychoses .....	368
10.17. Depression .....	370
<b>11. INVERTEBRATE NEUROPHYSIOLOGY</b>	
11.1. Insect Nervous System .....	372
11.2. Insect Sensory System .....	373
11.3. Other Invertebrate Nervous System .....	-
11.4. Other Invertebrate Sensory System .....	373
<b>12. TECHNIQUES</b>	
12.1. Recording Techniques .....	375
12.2. Drug Delivery .....	-
12.3. Cellular and Subcellular Labelling .....	379
12.4. Neurobiochemical Techniques .....	379
12.5. Computer Applications .....	379
12.6. Nerve Manipulations .....	-
12.7. Behavioural Studies .....	380
12.8. Disease Models .....	380
12.9. Diagnostic Techniques .....	384
<b>13. GENERAL CONCEPTS</b>	
13.1. Reviews .....	389
13.2. Symposia .....	-
