

The *Journal of the American Academy of Audiology* (JAAA) is published ten times a year, in January, February, March, April, May, June, July/August, September, October, and November/December.

JAAA is published by the American Academy of Audiology, 11480 Commerce Park Drive, Suite 220, Reston, VA 20191, USA. Periodicals postage paid at Herndon, VA, and at additional mailing offices. The 2015 annual subscription prices are as follows (in U.S. dollars): \$361 (individual online), \$462 (individual online and print); \$568 (institutional online), \$678 (institutional online and print); \$60 + s&h (single issue). For subscription inquiries, telephone the American Academy of Audiology at 703-790-8466 or 1-800-222-2336, or fax at 703-790-8631. POSTMASTER: Send changes of address to *Journal of the American Academy of Audiology*, Membership Department, American Academy of Audiology, 11480 Commerce Park Drive, Suite 220, Reston, VA 20191, USA; or membership@audiology.org. Copies not received will be replaced upon written notification to the Academy. Notification must be received within three (3) months of issue date for U.S. subscribers, six (6) months of issue date outside the United States. Duplicate copies will not be sent to replace those undelivered through failure to notify the publisher of change of address.

Publication of an advertisement or article in JAAA does not constitute a guarantee or endorsement of the quality, safety, value, or effectiveness of the products or services described therein or of any of the representations or claims made by the advertisers or authors with respect to such products or services.

To the extent permissible under applicable laws, no responsibility is assumed by the American Academy of Audiology and its officers, directors, employees, or agents for any injury and/or damage to persons or property arising from any use or operation of any products, services, ideas, instructions, procedures, or methods contained within this publication.

JAAA is indexed in Linguistics and Language Behavior Abstracts (LLBA), EMBASE, EMCare, CINAHL, PsycINFO, MEDLINE/PubMed, Scopus, the Web of Science SCI Expanded, and Current Contents/Clinical Medicine. Full text is available on the following access platforms: EBSCO and Ovid.

To order reprints or e-prints, or for permission to copy or republish JAAA material, go to www.audiology.org/resources/permissions.

Members of the Academy may access the entire contents of JAAA, from its inception in 1990, at the Academy Web site, www.audiology.org/resources/journal.

Vestibular Assessment: It's Complicated

Devin L. McCaslin

ARTICLES

- Factors Affecting Reliability and Validity of Self-Directed Automatic In Situ Audiometry: Implications for Self-Fitting Hearing Aids 5
Elizabeth Convery, Gitte Keidser, Mark Seeto, Ingrid Yeend, and Katrina Freeston
- Generalization of Sensory Auditory Learning to Top-Down Skills in a Randomized Controlled Trial 19
Cristina B. Murphy, Andressa K. Peres, Elaine C. Zachi, Dora F. Ventura, Luciana Pagan-Neves, Haydee F. Wertzner, and Eliane Schochat
- Continued Maturation of the Click-Evoked Auditory Brainstem Response in Preschoolers 30
Emily Spitzer, Travis White-Schwoch, Kali Woodruff Carr, Erika Skoe, and Nina Kraus
- The Nature of Communication throughout Diagnosis and Management Planning in Initial Audiologic Rehabilitation Consultations 36
Caitlin Grenness, Louise Hickson, Ariane Laplante-Lévesque, Carly Meyer, and Bronwyn Davidson
- Cochlear Implant Microphone Location Affects Speech Recognition in Diffuse Noise 51
Elizabeth R. Kolberg, Sterling W. Sheffield, Timothy J. Davis, Linsey W. Sunderhaus, and René H. Gifford
- Test-Retest Reliability of the Vestibular Sensory-Evoked Potential (VsEP) in C57BL/6J Mice 59
Julie A. Honaker, Choongheon Lee, Robin E. Criter, and Timothy A. Jones
- A Comparison of Conventional and In-Situ Audiometry on Participants with Varying Levels of Sensorineural Hearing Loss 68
Jürgen Kiessling, Melanie Leifholz, Steffen Unkel, Jörn Pons-Kühnemann, Charlotte Thunberg Jespersen, and Jenny Nesgaard Pedersen
- Effects of Coordinated Compression and Pinna Compensation Features on Horizontal Localization Performance in Hearing Aid Users 80
Petri Korhonen, Chi Lau, Francis Kuk, Denise Keenan, and Jennifer Schumacher
- Evaluation of the Benefits of Binaural Hearing on the Telephone for Children with Hearing Loss 93
Jace Wolfe, Erin Schafer, Emily Mills, Andrew John, Mary Hudson, and Solange Anderson
- Air Conduction, Bone Conduction, and Soft Tissue Conduction Audiograms in Normal Hearing and in Simulated Hearing Losses 101
Cahtia Adelman, Adi Cohen, Adi Regev-Cohen, Shai Chordekar, Rachel Fraenkel, and Haim Sohmer
- JAAA CEU PROGRAM 109
