內容摘要：

This book has established itself as a key text for all doctors, whatever their experience and wherever they practice, and is of particular value to candidates sitting the Membership of the Royal College of General Practitioners (MRCGP) examination. The light-hearted, conversational approach makes for enjoyable reading.

All trainee doctors, particularly those completing the Work Based Assessment (WBA) section of the MRCCGP examination, will find this text invaluable, as will undergraduate medical students and postgraduate candidates for the new clinical skills examination (CSE) in 2007, a future requirement for membership of the RCGP.
