內容摘要：

What do you think about cloning, stem cell research, brain enhancement, or conducting experiments on newly dead patients? Read *Smart Mice, Not-So-Smart People* and you'll know what Art Caplan thinks. This assortment of pithy, provocative opinions on all things bioethical does more than simply give you a piece of the author's mind--it dares you to make up your own mind. In his typical tell-it-like-it-is style, America's leading bioethicist Arthur Caplan provokes discussion on all issues at the center of the new genetics.
