內容摘要：

This book aims to fill a gap with an in-depth exploration of nursing ethics content from the western philosophical tradition, and some of the methods used in teaching this content. It will address cross-cultural issues in using specific ethics content. It will also reveal the poverty of the present dualism model in nursing ethics and replace this with a more complex and more useful model that invites debate. Its scope is both wide and deep but that is needed to enrich the basis for teaching nursing ethics.
