**書名：Ethical issues in modern medicine—
contemporary readings in bioethics**

作者：Bonnie Steinbock、Alex John London

簡介：

This comprehensive anthology represents the key issues and problems in the field of biomedical ethics through the most up-to-date readings and case studies available. Each of the book's seven parts is prefaced with helpful introductions that raise important questions and skillfully contextualize the positions and main points of the articles that follow.

目錄：

Part One Foundations of the health professional-patient relationship

Section 1 Autonomy, paternalism, and medical models

Section 2 Informed consent and truth-telling

Section 3 Conflicting professional roles and responsibilities
