書名：Coaching in medical education

作者：Maya M. Hammoud

內容簡介：Today's medical school coaching programs integrate a wide variety of personalized goals, including professional identity formation and academic performance, as well as community building, leadership and lifelong learning skills, clinical skills development, and more. Coaching in Medical Education, part of the American Medical Association's MedEd Innovation Series, is a first-of-its-kind, instructor-focused field book that equips educators to coach all learners and run an effective coaching program, increasing the likelihood of the learner (and thus physician) success.

目錄：
